

## **An Insider's Guide to the Walt Disney World Experience**

*7 tips and secrets to making the most out of your Disney vacation*

There's nothing quite like the magic of watching your children take their first steps into the enchanting world of Walt Disney in the Walt Disney World theme parks in Orlando, Florida. And, if you're like most people, you will probably plan this exciting vacation months in advance, and you'll want to get every detail just right.

To make sure your trip creates memories you'll treasure for a lifetime, take a look at the top 7 secrets and tips to ensure you won't miss out on a single minute of breathtaking magical fun for the whole family.

1. **Purchase your tickets ahead of time.** Do not make the mistake of waiting till the last minute to purchase your tickets or think you can just purchase your tickets at the gate. These lines can be even longer than some of the ride waits and if you have little ones, the last thing you'll want to do is make them wait to get into the parks.

Purchase your tickets online at <http://disneyworld.disney.go.com/>. While you're there look for current specials or deals that they run. Disney has been offering some unbeatable deals, especially during this slow economy, so take full advantage of them.

2. **Stay on property.** Trust us. It's worth the price, and the experience is truly one-of-a-kind. There are many hotels to choose from with prices ranging from value resorts to luxury villas.

When you stay at the hotels on Disney property, there are many benefits you can take advantage of that other guests cannot. You have free transportation from the Orlando airport to your hotel, extended park hours (see number 7 for more info), free resort transportation all around property, package delivery service right to your room, and savings on select dining when you purchase a Disney Dining plan with your stay.
